AVAILABLE THROUGH
TEMA ISENMANN**

WS 2.10 Magnetic Systems solve all your Wear and Screening needs

Our EXCLUSIVE, WS 2.10 is a high-quality polyurethane that can be applied to ANY steel surface. WS 2.10 Systems deliver custom solutions for all your wear and screening needs—with amazing **quick-install, no-bolt, no-glue, no-weld** systems.

Innovative protection for your investment

WS 2.10 Wear Liners can be applied to ANY steel surface that sustains wear. Premature wear is successfully conquered in static or vibratory applications...no problem! For use as: Frame Protectors, Tube Covers, Discharge and Feed Lips, Chute and Pan Liners. **WS 2.10 Wear Liners protect your investment!**

Revolutionary screening solution

WS 2.10 Screening Media can be applied to ANY steel surface designed for a screen. Quick install and superior screening solutions are available in 30bh, 40bh and 50bh and easily installed on WS 85 girders, Kombi Rails, etc. For use as: Screening Media. **WS 2.10 Screening Media takes screening to the next level!**

- No bolts or glue
- No welding or cutting
- Easy wear rotation
- No retrofitting steel
- Installs quickly
- **STAYS SECURELY IN PLACE ON VIBRATING SCREENS AND CHUTES**
